OBJECTIVE

Accomplished IT professional with over 5 years of managerial experience, transitioning to cybersecurity with certifications in Cisco, ISC2, and EC-Council Ethical Hacking Essentials, ready to leverage my leadership and technical skills to strengthen organizational security.

EXPERIENCE

ICT/MMA Program Head, STI College Las Piñas   July 2019 - January 2026

- Ensured the implementation of academic requirements for BSIT, BSCS, BSCPE, and BMMA programs.
- Led a team of 20 faculty members to competently deliver courses to more than 1,000 students.
- Assessed the acceptability of thesis and capstone projects as panel member during research defense.
- Taught web and mobile app development, systems analysis and design, cybersecurity, and automata theory.

Web Designer, Personiv   June 2016 - February 2019

- Designed websites using modern technologies, turning concepts into functional sites in under 3 days.
- Satisfied client requests for website modifications in less than 3 hours.
- Used Salesforce and Jira to track website status, ensuring turnaround time is aligned with service level agreement.
- Went to Gurugram, India as part of a specialist team to oversee the use of the new website design tool.

CERTIFICATIONS

Ethical Hacking Essentials (EHE), EC-Council   October 2025

HCIA-Security, Huawei   September 2025

Vulnerability Management, Qualys   June 2025
