PROFESSIONAL SUMMARY

Senior ICT Leader and **Master of Information Systems** (UPOU). As Program Head, I directed **20+** professionals to drive **70%** service adoption of **1,000+** stakeholders. Specialist in consultancy and security awareness training, integrated with a technical practice in penetration testing, SIEM operations, and vulnerability research.

SKILLS

Offensive Security	Vulnerability research and disclosure with OSINT, Nmap, Burp Suite, MITRE ATT&CK
Defensive Security	Endpoint monitoring and active response using Wazuh SIEM/XDR and VirusTotal
Digital Forensics	Network analysis (Wireshark), dynamic analysis (OllyDbg), static analysis (ILSpy)
Secure Engineering	Infrastructure hardening and Java/C# (.NET) development applying OWASP Top 10
IT Consultancy	Digital transformation; Change management (migrations); Infrastructure procurement

EXPERIENCE

ICT Program Head, STI College Las Piñas

July 2019 - January 2026

- **Strategic Leadership:** Directed a team of **20+** professionals using Agile mindset; managed the end-to-end talent lifecycle including onboarding, technical training, performance review, and administrative support.
- **Operational Excellence:** Achieved a **70%** increase in service adoption by pioneering client engagement opportunities; maintained growth through optimal resource allocation and process automation.
- **Crisis Management:** Served as a subject matter expert and consultant for the digital transformation of onsite services to online platforms during the pandemic, ensuring business continuity for **1,000+** stakeholders.
- **Security Advocacy:** Championed institutional cyber hygiene and security awareness training; provided cybersecurity mentorship resulting in **3** successful EC-Council Ethical Hacking certifications; internally disclosed vulnerabilities using TTP mapped to the MITRE ATT&CK framework.
- **Compliance:** Audited service delivery to ensure compliance with curriculum and operational expectations; served as technical panel during BSIT and BSCS capstone presentation to ensure project integrity.
- **Cross-Functional Collaboration:** Worked with Admissions department for client acquisition activities; resolved high-level escalations from Registrar and Guidance offices; served as technical consultant on infrastructure for the MIS department; coordinated partnerships with both student and professional organizations.

Web Designer, Personiv

June 2016 - February 2019

- **Global Change Management:** Served as a subject matter expert in Gurugram, **India** to manage web designer expectations during migration to a new design tool, while assisting in Level 2 escalations from **America**.
- **Operational Excellence:** Exceeded SLA by producing new website builds in under **4** hours, website re-design in under **3** hours, and website modifications in under **1** hour.
- **Compliance:** Audited SEO and website performance using Google Lighthouse; Conducted regional research to localize web assets, ensuring environmental and cultural relevance of website design.
